ZIMBABWE

*To end with starvation and unemployment
For decent wages, housing and education for all*

WE NEED TO MAKE THE WORKING CLASS AND POOR PEASANTS TO GET ON THEIR FEET!

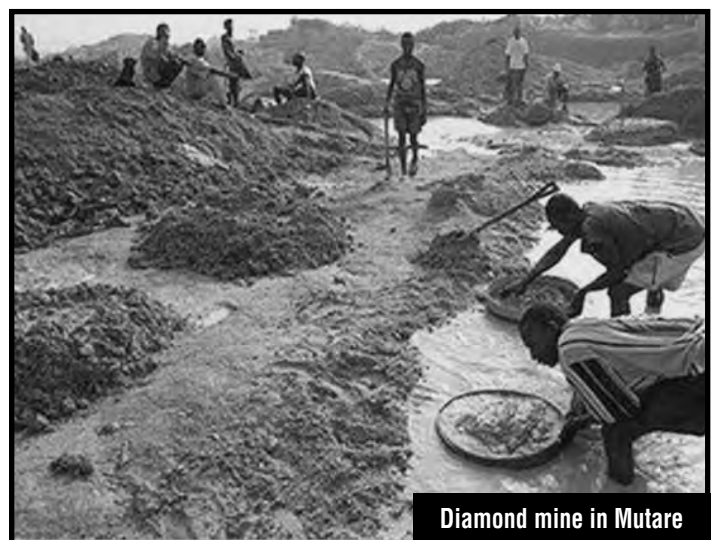

**For a national congress of employed and unemployed workers, with rank
and file delegates of all the workers movement!**

**We need to break the subordination to our executioners imposed by the leaders in the negotiation
tables with the government and the bosses, which are made behind the worker's back!**

**Enough with Mugabe! Enough of imperialist plunder!
Enough of slavery!
For the General Strike!**

2013. Mineworkers on strike in Marikana

Diamond mine in Mutare

As the workers in Zimbabwe suffer the same scarcity and outrages of the workers of the entire Africa and working class at world wide level. IT IS TIME to stand up to fight for our job, our bread and life of our families.

IT'S TIME to confront determinedly the imperialism that plunder our nations and with their governments that kill, repress, and starve workers in the entire tormented Africa.

IT'S TIME to set up a workers' alternative independent from the bosses. IT'S TIME to prepare and organize a big general strike, which is the way forward to get our demands!

To conquer it, we need to set up a true National Congress of employed, unemployed workers, militant

youth and poor peasants to fight together with the South African workers; since against the democracy for the rich we need the democracy of those below to win! That will be the way forward to impose and conquer struggle committees in each city and region, where all the unions and the organizations that speak on behalf of the working class and claim to defend its interests are integrated.

This is the true power we must set up. Enough with the government of Mugabe and the boss politicians, agent of imperialism and the transnational companies! hands. Enough of imperialist that plunders our nation, enough of union leaders who are corrupt! Enough of dividing the workers ranks!

It is time for the official ZCTU led by Nkiwani has to break with the government and its negotiation table. They have called for a demonstration to put pressure to get some demands for the workers, when they support and, in fact, are part of the government, which is a declared enemy of the workers. The government represents the bosses and the transnational companies. We have nothing else to discuss or to agree with them.

We believe that nothing will come out from that negotiation table, which is made behind the workers' backs.

We need to prepare a decisive struggle, as the one that our class brothers and sisters carried out in Marikana against Angloamerican. That decisive struggle is no other than the general strike, putting on the streets the whole weight of the workers movement, which is the majority class in the society, the only one that produces wealth and suffers a brutal slavery.

We cannot take any longer the miserable wages, unemployment, lack of housing. The solution to these problems must be taken in our hands! There cannot be any more trust on the bosses, on the ones from above, on their governments and parties which are partners of imperialism that plunders our wealth, like MDC or that of Mugabe.

The working class must stand firm in the political national life! We want a decent wage to afford the family basket! We want jobs for all! We want free education and health! None of this will be obtained in a negotiation table.

To get out from the sufferings, it is necessary to hit toughly the expropriators of the people! We need right now a general strike! We need a huge unified action of

all the workers of Zimbabwe, so it is heard once for all our needs and demands.

Here, nobody gives us things for free. we conquer all with our struggle, our demonstrations and trusting in our own forces.

We have organizations. We have two ZCTU. one of them supports openly the government (Nkiwani), and it must break right now with it if it wants to defend really the interest of the workers.

From the other ZCTU, we are organizing a fight. Unfortunately the decisive call to organize and set up the unified fighting committee for the general strike has not been issued yet. We cannot turn our eyes blank. it is necessary to demand Nkiwani and the leadership of official ZCTU to break with the government. it is necessary to call the workers rank and file to set up a Unified Worker Congress, to unified the forces to hit together the bosses and their governments.

The fight for the general strike! It is unbearable this situation! We cannot call meeting after meeting without taking any concrete resolution. From the other ZCTU –led by Matombo- must call all the unions and organizations who talk on behalf of the Workers to set up a Worker Congress, a fighting front, to prepare the general strike. All the rest means nothing.

We cannot keep depending on what our leaders decides on our backs. We must take our fight in our hands, from the ground! We must organize assemblies in the factories and workplaces and set up fighting committee's per city, region and national level into a Congress with delegates with rank and file mandates. both ZCTU, progressive teachers, the militant student movement and the poor peasants must all to this Congress.

It is necessary that our leaders let us fight and stop dividing us. It is necessary that tie our fate to the exploiters. The ones from above want us slaves and kneel down.

The workers do not accept more to be used by the ones from above, and at the back of the workers which only benefit the leaders of ZCTU and the bosses.

The leaders of ZCTU (Nkiwani) demand that the compa-

Mugabe, the lackey of Anglo American, together with the Queen of England

nies pay the union fee of the workers. What does it mean? Why will the bosses pay to the union leaders? The one who pays, commands! If the bosses pay, the union leaders will obey them and not to the workers. Enough! Out from the state and the bosses our workers organizations!

The unions and workers need funds to keep our organization and fight. However, we cannot depend on the bosses' money. For that reason the leaders stop defending the workers. The funds for the union must come from the support given to the leaders and worker delegates going to each factory, piece of land, work place.

Enough of linking ourselves to the capitalist business! Their only business is how they exploit us and plunder our wealth in Zimbabwe.

We live in one of the "poorest countries" of the world. On it there are bosses, governments, politicians and bankers who are the richest of the world. Enough!

The freedom of the workers will be work of the workers itself!

To be able to eat, in the entire South Africa, we are not fighting alone. It is necessary to fight like the Marikana workers and rebelled mineworkers in South Africa. The demands for which the Marikana mineworkers rose up are the same demands of all the worker movement in the region and the world working class:

Salary, decent job, and against the treason of all the leaders that speaking in the name of the unions and worker organizations only sell out workers to their executioners.

IT IS TIME for the working class in Zimbabwe, united with the workers across Africa, to impose a workers plan of way out to the catastrophe to which the exploiters and plunderers of our nation took us.

The crisis must be paid by the capitalist, the bankers and transnational companies who plunder our wealth! For the nationalization without compensation and under workers control of the big mine companies, banks and the great land owners! There will be the funds for health, housing,

education and public work to guarantee jobs for all!

It is time to unite and set up a strike committee, for all the workers and exploited of Zimbabwe to rise. Let's unite, regroup and have a powerful working movement to defeat the government of Mugabe and his minions, the transnational companies and the slaver bosses!

Let's unite our forces to confront the Anglo American and capitalism across the whole tormented Africa and their boss Obama, the one that commands the attack on the whole world working class!

Today workers are being tortured for standing for their rights. We shall continue fighting for justice. We demand those who killed our brothers' justice should prevail! We demand justice for our miner brothers killed in Marikana! We demand justice for reckless shooting of Brown son in Ferguson (Missouri), who was a member of the Afro-American community of USA!

There are our Afro-American brothers, fighting from within the imperialist beast. The African workers are strong! We have to get rid of the traitors that, from within, sell out our organizations to the slavers!

This is the road that leads us to unify the working class to prepare and organize what we really need: a general strike to hit as a single fist against the exploiters, their governments and political parties.

Enough with Mugabe! Enough with bosses' politicians as MDC!

Enough with bankers and transnational companies which plunder Zimbabwe!

For the general strike right now!

Zimbabwe will be socialist or will keep as a slavered colony by the City of London and Wall Street

STRENGTHEN THE POWER OF THE WORKERS OF MARIKANA AND THE WHOLE SOUTH AFRICA!

**Enough with the plundering of Angloamerican and the transnational companies!
Decent work, housing, health, education and wages! We need to prepare a big fight!**

**End with the murderous police and the governments lackeys of imperialism in the entire region!
Enough of rick blacks, managers of the transnational companies, in a middle of a sea of black slaves!**

Enough with the union bureaucracy! Open the road for those who fight!

**Set up the power of those from below, from the working class and the exploited
of the Bantu Republic!**

The workers of Marikana have waged a great struggle, with a strike of more than five months against Anglo American, its lackey government of Zuma, the murderous police and the Stalinist trade union bureaucracy of COSATU. They were an example of fight for the workers movement of Africa.

To fight for simple demands of wages and a decent living, the workers had to confront the treacherous trade union bureaucracy of COSATU, paid by the CEOs of the TNCs, and the murderous police that killed 34 fellow workers, leaving their wives as widows and their children without a father.

In order to fight, we set up the most valuable thing we've conquered: our unity. We set up picket lines, strike committees and assemblies in which everything is decided among all. We even had to set up struggle committees to defend ourselves of the bloody police repression and the thugs of the bosses.

Angloamerican, as every TNC that plunders southern Africa, wasn't willing to give up on anything. Those plunderers and slave exploiters didn't accept the worker's demand. There was a strike of five months; an heroic struggle for a 12500 rands wage. The unity made us very strong.

We got a partial demand of wage increase, but we couldn't get all our demands.

The strike showed that in order to

Mineworkers in the anniversary of the 34 workers killed

struggle even for the most minimum of our demands (such as a decent wage) we needed to develop a huge fight, even at the point of having brothers and fellow workers fallen in combat. The workers don't get anything for free from anyone. Everything we get is because of a strong struggle.

We still need to get the 12500 rands wage. We still need to get industrial safety in the mines, where we permanently have accidents, we leave our health and we even die; and we still need a decent living and education for all.

The imperialist pirates, the usual slavers, plunder our nations in Africa and take away our nickel, platinum, diamonds... all our wealth. Their yearly profits escalates to 50.000 million dol-

lars -as Angloamerican- which are distributed among their parasite shareholders in Wall Street and London City at the expense of the sweat and the overexploitation of millions of slave workers of the tormented Africa.

We keep on demanding decent housing for all! Those slavers which claim to be "cultured" and that they "bring civilization" are the ones that make the workers (the very ones that bring the wealth from our soil) to live even worse than the slaves from centuries ago.

We demand drinkable water, a sewer system... We only ask for housing, work and decent wage. That's why we fight and get organized.

All the workers that come out to

fight for these demands in any country of the black Africa get the same response by the slaver bosses: persecution and repression. In the workers movement of the neighbouring countries (from which workers go to work to the mines as slaves) we are chased and incarcerated because of the "felony" of fighting, like in Zimbabwe, Botswana, DRC, or even killed as in Marikana.

To fight against the bosses in Marikana, we had to rise against the bought leaders of COSATU that support Zuma's government. This government of starvation and selling-out of the nation came to impose a new Apartheid regime for the working class and the exploited, but under the command of the rich blacks, those true managers of the white slavers that let the latter the lands, the control of the banks and the officer's caste of Pretoria's army.

This is how we are now, with a government of rich blacks, junior partners, managers and forepersons of the imperialist TNCs.

The workers of Marikana still need to conquer lots of our demands. But we have conquered something very important: our unity. The only way to conquer the rest of our demands and for them not to take away the ones we've already conquered is to reinforce that unity with all the workers from South Africa and the entire Southern Africa, that is to say, with the workers from our republic... the Bantu Republic.

We all face the same imperialist TNCs and the bankers that plunder our nations. We all fight for the same: a 12500 rands wage for all, decent work, a shift of no more than 8 hours, decent housing, workers control of safety and production rhythms in all the companies, education for our children. Health, education and housing is part of our wages. The capitalists want to avoid this and we cannot let them.

To fight for these elemental demands, in tens of unions and workers organizations of South Africa and in neighbouring countries of the region such as Zimbabwe the trade union leaders sold out to the companies are being defeated as the only way to move forward in our struggle.

We have conquered AMCU, with

The workes fighting against the police forces in Lonmin

our delegate bodies and assemblies. **We have the conditions to call all the unions, the sectors of the workers movement in struggle in South Africa and in the entire region that want to fight for what belongs to us, to call for a big congress of all the unions and workers in struggle, who really want to break with the trade union bureaucrats that sell out our demands.**

We need to call for a congress of all the workers organizations of South Africa and the entire region for the demands that are already unifying us, to be able to group all those who are not willing to let the leaders divide us and put us down to our knees before the imperialist TNCs lackey governments.

From AMCU we should call the metalworkers, the rural workers, the textile workers, the workers in struggle in Zimbabwe, those who break away from COSATU every day, to **a big congress of rank and file delegates with mandate**, of South Africa and the whole region, to unite the ranks of the working class. A great congress with rank and file delegates, without treacherous trade union bureaucrats, without subordinating us to the bourgeois politicians or the sepoy governments, to set up a great national struggle organization and in Southern Africa, to begin preparing a great workers battle... a true general strike in the entire region to show who is really the one that makes our countries work and generates the wealth in them.

The TNCs and the governments are united to makes us slaves and plunder

our nations. It is time for the workers to unite! Never again fight alone! Prepare and organize a great general strike! It is time for the capitalist to tremble and the workers to stop suffering starvation and misery!

We need to unite our ranks to carry out a single fight for our same demands! No more unemployment! Work for all, sharing the working hours, even reducing the shifts without lowering the wages! 12500 rands wages for all the workers! Decent housing, hospitals and education at the expense of the super-profits and the plunder of our peoples that the imperialist mining companies do!

The Anglo American, the enemy of the workers, has already unified by slashing all of us with his whip. Now, we must get unified to defeat it. It is time to go for everything, as they come for all the Africa and his wealth.

Let's recover our minerals, our natural resources! For that, it is necessary to confront and defeat the governments lackeys of the imperialism; those governments of bourgeois and rich blacks who defend the pockets of the white pirates of London, Wall Street and the imperialist Europe.

Expropriation without payment of the TNCs and all the mining companies to take back what they have steal us during centuries!

It is necessary to nationalize without payment the banks where they flight our wealth!

Recover the land stolen by the white bourgeoisie to be able to eat!

These are our demands. The workers know where the money is to be able to live in a decent way, money

stolen by the imperialists and his native partners.

In disagreement with these events, leaders of the African National Congress have broken with the Zuma government. But in their breaking, they don't go till the end despite a huge enthusiasm among workers of South Africa.

They speak about "black power" and "nationalize the Anglo American"...but with payment? They propose to pay to those who plundered huge wealth of minerals taken from our continent during centuries?

The socialists say that one have to be consequently anti-imperialists. Only the working class will be anti-imperialist since we don't have any common business with the imperialist TNCs. Despite the rich blacks mask themselves with nationalist phrases, they partners of the capitalists. We affirm that the liberation of workers will be a task of workers themselves.

For that, the socialists affirm...nationalization of the TNCs? Yes, but without payment and with the expropriation of all the assets of the managers. That they respond for the robbery and plunder applied on us! We want an Anglo American expropriated without payment and nationalized, put to work under a worker management voted by their workers and their trade union! we want a mining sector, land and banks nationalized

under workers' control without murderous managers accomplice with the traitors union bureaucrats...all of them under the custody of the killer police of Zuma government and other repressor governments in the region!

Whenever we go out to fight, judges and murderous police and bought union leaders get unified with bosses and foreman to repress and kill us.

We have already seen and suffer it. Our demand cannot be another than: dissolution of the murderous police! Surveillance Committees as well as of self-defense of workers and their unions!

The ANC in South Africa have dissolved the combatants against the Apartheid in the murderous army of Pretoria under the command of the White officers. It can no longer lie to a single worker in South Africa and our region by telling that with laws in the parliaments of slavers and their vile regimes of oppression it will be possible to gain our worker demands or recover our wealth nationalizing the foreign companies.

We need to set up the power of workers and exploited. A true power of the black workers who produce the 90% of the wealth all around the country and the entire Africa.

To set up a true power of the mil-

itant unions, the pickets, the strike committees and soldiers' committees which is necessary to recover so that they can fight again at the service of the poor people's cause, as yesterday we did against the Apartheid. It is necessary to call on delegates of the rank and file soldiers to participate in such big worker congress so that they get organized side by side the miners and delegates coming from all the worker organizations of Southern Africa. That's the way we will begin to be unbeatable, that is, with the national and international unity of our struggle by setting up the unity of all the exploited that are the vast majority.

Only that power defeating the regimes lackeys of the imperialism leaned on the mass fighting organizations will be able to resolve till the end the question of bread by recovering the land, decent salary, housing and education by expropriating the TNCs and imperialist bankers.

We are a single class, a single power and a single nation: the black nation, the Bantu nation that can only emerge once again in the history by setting up a federation of worker and peasant Republics of the entire Southern Africa!

We are strong. Our coloured siblings together with the world working class have been taken as slaves for the

Marikana workers marching against the imperialist mining companies

benefit of the big capitalists in their country from where they rule and plunder the world. The same companies that have declared us war in Marikana and Africa-like yesterday they did so in the Maghreb through their lackeys: Khadafy, Ben Ali and Mubarak- kill and exploit us in the imperialist Europe and US. Our brothers die like animals crossing the Mediterranean seeking a decent life or they end in concentration camps in Lampedusa and the imperialist Europe. On top of that, do we have to allow that their companies come here to enslave, maltreat and plunder us?

Our allies are the European and US workers where the coloured workers are a very important part. There they also fight. Our Afro-American siblings in USA are repressed and as Michael Brown killed by the white police of Obama, like here in Marikana, for the "crime" of having a different skin. They maltreated, massacred and repress us like in the Maghreb and Middle East and all the people that fight for the liberation in the world.

Tens of thousands workers in USA have won the streets at the war cry: "Stop the war against the black America" such war cry must be extended to "stop the war against all the black working class in the world" Stop the pillage! No more massacres!"

We are part of the world working class. We are a single class. we are strong if we unify our fights.

In our countries we have allies: the poor peasants, the ruined middle classes. In the central countries are our coloured brothers who are a fundamental link of the working class in those countries. They are already fighting. There the bankers of Wall Street, Anglo American and the City of London are throwing on workers their crisis.

We are workers of Marikana, Zimbabwe, Bostwana...from the Bantu republic!

We are killed miners of Marikana!

We are Michael Brown, from Missouri!

We are the thousands ones who die in the Mediterranean looking for a decent salary !

We are not the rich blacks who defend the pockets of the White bosses, in a sea of slaves in Africa!

We are not Obama, the chief of the imperialist US-UK pirates, the biggest killers of workers and oppressed people all around the world!

We are the black workers that want justice, freedom, to end with the slavery and take the destiny in our hands in Africa, Antilles, the unsaved Haiti and in the black America!

Out the imperialism! Expropriation without payment of the Anglo America and Banks!

Long live the international unity of the working class!

No more rich blacks in a sea of black slave-workers!

No more of governments of Zuma, Mugabe, and the others , lackeys of the imperialism!

National congress right-now to stand up the fight of the entire working class of the Southern Africa!

Down with the union bureaucracy of COSATU!

In defense of the worker democracy! Open the road to those fighting!

For committees of workers and militant unions! For committees of rank and file soldiers for never again the managers and their mur-

derous police repress and kill when we ask for our demands!

12500 Rands for all! Decent health, education and housing for all immediately!

We don't ask for alms, we ask for justice!

Dissolution of the killer police! Neither forget nor forgiveness! True and justice!

Judge and punishment to the murders of the 34 miners of Marikana and all the repressors of the workers and people!

Break with imperialism! Black Africa will be a workers and peasants Africa, or it will be a colony of Wall Street and the queen of London!

We'll commemorate the 4th Anniversary of the Syrian Revolution

We are fighting in rebel Aleppo, Syria against filthy dog Bashar

*We are the Donbas miners fighting against the IMF and the EU!
We are the militant youth in the Greek revolution!*

*We are the workers and peasants that have taken Sana'a, Yemen's capital city against the rise in foodstuff prices and the increase in public services fees, against unendurable starvation!
We are the peoples' resistance in Maghreb and Middle East!*

We demand justice! We are seeking nothing less than victory! A revolution has started; a revolution has been massacred; though it has not yet been defeated. The Resistance is alive and well and is going on.

Long live the Revolution by the workers and the poor! Death to genocidal Assad, murderer of the Syrian people for the sake of all the imperialist powers! Long Live the Palestinian resistance! For the destruction of the Zionist-Fascist State of Israel!

IT IS URGENT TO STOP THE MASSACRE BY FASCIST AL ASSAD, PATRONIZED BY OBAMA AND ALL THE IMPERIALIST POWERS; HE IS TRYING TO RETAKE REBEL ALEPPO, AS HAS BEEN FOR LONG, AND AS YESTERDAY HE COULD RETAKE HOMS!

- The Kurdish bourgeoisie signed an agreement with al Assad, so separating the Kurdish masses from the rebel exploited uprising in Aleppo
- Saudi Arabia, under the command of the Anglo-American imperialism, sent the IS (formerly ISIL or ISIS) to all the zones that the revolution had liberated from al Assad, in order to crush the insurgent masses from within, administer all the oil wells and water reservoirs for the imperialist corporations and save filthy dog Bashar in Damascus.
- The FSA and Jabhat al-Nusra are trying to control the masses in the liberated zones so they do not expropriate the bourgeoisie.
- The WSF imposed a fence encircling the Syrian masses, so letting filthy dog Bashar a free hand to massacre them.

Though, in spite of all this...

In indomitable besieged Aleppo, the heroic resistance of the workers and the oppressed people is still alive and well and is fighting in a tough resistance!

As yesterday the workers and the oppressed people all over the world rose in solidarity with the martyred masses in Gaza before the Zionist attack

IT IS NECESSARY AND URGENT TO BREAK THE SIEGE IMPOSED TO THE EXPLOITED THAT RESIST IN SYRIA THE GENOCIDE BY FILTHY DOG BASHAR!

Let's take the streets all over the world!

Syriza, the new jailer of the revolutionary Greek youth

They are the "left" squires, who take care the profits to Troika, IMF, European Union, the Greek finance capital and their monopolies. They now, the "socialist", in a government with representatives of the bankers and capitalists remain in prison, torture and repress the rebellious youth who does not submit to their plans of misery and slavery.

Syriza has already been shown as a new obstacle and direct representative of the Greek financial capital partner to HSBC, Goldman Sach, JP Morgan, IMF and the European Union. This government only comes to deceive the workers with false promises and demagoguery which will last short time, with the single purpose of take the masses out of the path of revolutionary general strike of the workers' councils and soldiers' committees. This is because the masses have begun to revolt against the limitless attack from the exploiters.

They are "sellers of illusions and traders of hope" as it is bravely denounced by the youth and workers in the prisons of that infamous regime.

Enough with social imperialist left ... under the orders of Maastricht, Obama and Greek finance capital and minors shareholders of City of London and Wall Street! These are

Gerasimos Tsakalos and Panagiotis Argirou, political prisoners

Savas Xiros, political prisoner

those who, with their governments and their sold out agents within the labor movement, lead the attack and throw the crisis to the Greek workers!

We cannot allow a single minute with a young fighter in the jails of the infamous regime! Trial and punishment to those who stole the nation, the oppressors of the people, the fascist gangs of Golden Dawn, the murderous police of Alexis Grigoropoulos and Lambros Foundas!

No trust or support to the new imperialist government of SYRIZA and his ministers, followers of the hated government of Karamanlis and Papandreou!

The Greek workers do not have to pay for the crisis that Greek bankers made.

We must expropriate the expropriators of the people! It is necessary to end with the sold out union leaders. The exploited should resolve the crisis on our own hands! We must set up committees of workers and soldiers!

Since 2008 the Greek working class has been the advanced one to the fight against the attack of Wall Street who places the burden of the

crisis to the world.

The spark of Athens cannot be turned off! Today its flame are carried on by the rebellious youth, for that reason it is persecuted and imprisoned in the dungeons of that infamous regime.

This spark set fire the entire Europe! Down with Mast rich! For the United Socialist States of Europe!

Spanish State

March 12th, 2015

Internationalist fighters marched from the Spanish State to break the fence imposed to their brothers of Donbass and therefore they are currently prosecuted for Bourbon's murderous monarchy

Bourbon's murderous monarchy that, together with USA, invaded and massacred the exploited people of Iraq and Afghanistan

*The ones who plunder Latin America with Citibank
The parasites of Santander Rio and Bilbao Vizcaya
banks who oppress the Basque and Catalan peoples*

They attack, chase and prosecute the internationalist fighters who travelled to support their brothers and sisters of Donbas (Ukraine) who are attacked by NATO, Obama, Merkel, Hollande, the Bourbons and their gurka forces, i.e. the fascist from Kiev:

Drop all charges against the 8 internationalist fighters who travelled from the Spanish state to support the people of Donbass!

Enough prosecuting and attacking the ones who resist and rebel against oppression, misery, plunder imposed by imperialism!

On February 27th –operation Danko was carried on in the Spanish State- 8 internationalist fighters who returned from Donbas were imprisoned. They were young men who travelled to support the Eastern Ukraine's people, aged 20-30. In the region of Don people are suffering the worst attacks: thousands of houses were destroyed, bombed, isolated, fenced and thousands of children, women and elderly people were murdered. This is the "punishment" they receive for resisting and rebelling against imperialism, IMF and EU's plans for Ukraine, which include lay-offs, privatizations and double nation's plunder.

Before such harassments against exploited people, young men and women's hearts were filled with a true internationalist desire and decided not to "stay twiddling their fingers", while their class brothers and sisters suffered terrible conditions thousands of kilometers away.

Due to their solidarity with the Ukrainian exploited people, the internationalist youth from the Spanish state were attacked in their houses by police forces, who hooded and armed, at gunpoint, they were imprisoned and their houses seized. Then they were moved to different police stations

where they were held isolated for 24 hs and imprisoned. Afterwards they were released but prosecuted, facing accusations that may lead 15 years in jail.

They were accused by King Felipe's murderous Monarchy and his court of being "terrorists". Exploiters' cynicism has no limits. Bourbons' Monarchy was a milestone in US invasions to Iraq and Afghanistan, were they murdered thousands of exploited people. Even today 485 Spanish army men belong to the Afghan invasion.

Spanish kings have troops prepared to act with NATO and from there they intervene and lead the bloodiest attack against exploited peoples' of the world. They are part of the invasion to Lebanon with 1100 soldiers there attacking and bleeding the nation.

They have troops in Mali cooperating with French imperialism on its invasion in the African continent as well as the invader troops in Somalia where they have killed thousands exploited people.

The Spanish state belongs to UN where they organize and discuss the "missions" of imperialist plunder and exploitation around the world.

Spanish monarchy belongs to Maastricht which is throwing the cost of the crisis –that they have caused- to the working class in their own country

and colonial and semi-colonial world that they plunder, like the working class in Eastern Europe.

NATO, headed by US and European imperialisms, heads and finances the fascist attack against the exploited people of Donbas to impose their plans of misery against the strangled nation. **They are the terrorists, they are barbarism, starvation, misery and massacre against exploited people of the world!**

They are the biggest killers and butchers in history, they dare accusing, chasing and prosecuting the internationalist fighters guided by a solidary spirit who travelled to support Donbas.

From Donbas to Kiev, a single fight against plunders and exploiters! Ukrainian workers want the same wages than Germans! For a Soviet Unified Ukraine, free and independent!

Without Poroschenko and his fascist army of Kiev, without NATO, UN, Obama, IMF, Merkel and his lackey Putin...

Ukraine will be soviet or socialist...or it will be a Colony!

For the return of USSR of workers, peasants and soldiers councils!
